Subject: RE: Niagara Falls Boulevard/Holy Trinity Cemetery Overtime Request Pay Period 18

Eric: Eric Mosher asked me to discuss this request with you as he is not comfortable approving and requesting this much OT for this site from now on. He and I talked about this situation and he feels that the work can be scheduled more routinely with less hours each day and without the need to work every weekend. I believe nothing has changed since the start of operations there, the home Improvement building at NFB is still on-going.

I am going to ask Chris Jimenez to be your alternate on these sites. Let me know before I do if you have any concerns about that.

Subject: Niagara Falls Boulevard/Holy Trinity Cemetery Overtime Request Pay Period 18
Importance: High

Good Morning:

Below is the estimated overtime for Niagara Falls Boulevard Site Removal Action and Holy Trinity Removal Action based on the schedule I have worked out with property owners, operators and contractors.

-

Travel Date Range for this Removal Action Tour: 7/31/2016 through 08/26/2016 (Pay Period 17, 18 & 19)

Travel day to Site is on 07/31/2016 (Pay Period 17)

Overtime Hours Requested for PP 18:

08/08/2016 through 08/12/2016: Estimated **2 hours** per day (10 hours OT)

08/13/2016: Estimated **10 hours** per day (10 hours OT)

08/15/2016 through 08/19/2016: Estimated **2 hours** per day (10 hours OT)

Total Overtime Hours Requested: 30 Hours

Justification:

OSC Daly will be traveling on 07/31/2016 via GOV to Niagara Falls, NY for Niagara Falls Boulevard Site to continue oversight of gamma survey assessment, soil sampling, demolition, removal and staging of contaminated material from designated areas within GNBC structure as well as removal of contaminated material from the surrounding parking lot/wooded areas. Radon sampling, gamma surveying and soil sampling will also be performed at Holy Trinity Cemetery during this time range.

In order to maximize travel time, resources, EPA funding, property owner scheduling and contractor scheduling, all this work will be conducted continuously within this time range. It will require at least Ten-10 hour work days to complete the described work during the regular work week. Work may also be necessary to be performed over the weekend. GNBC closes early on Saturday and is closed on Sunday which will allow for the noise and prevent disruption to the operators and patrons in these specific inside areas during certain activities. During this time range we may need to work on Saturday, August 13th. EPA is also working with private residences/Town of Lewiston at the Holy Trinity Cemetery Site. This work may also require accommodations outside normal business hours and

additional overtime for personnel.

As in past request, the worst case scenario for overtime is requested but is dictated by the timing of the work and cannot be scheduled exactly.

Return travel is planned for August 26, 2016 (PP 19)

Regards,

Eric
